SUMMARY

I am a fresher Frontend Developer with strong skills in HTML, CSS, Bootstrap, and jQuery. I create clean, responsive, and user-friendly web designs, and I have a basic understanding of JavaScript that I am continuously improving. I enjoy building modern UI layouts, solving frontend issues, and learning new technologies. I am passionate about growing in a professional environment and contributing to real-world projects with dedication and creativity.

Projects

Spectacles ← **Click here**

I have developed a multi-page spectacles website using HTML, CSS, and JavaScript. The website includes a Home page, Product page, and Order page. It is fully responsive and functions smoothly across mobile, tablet, and desktop devices.

Furniture ← **Click here**

I have developed a multi-page furniture website using HTML, CSS, and JavaScript. The website includes a Home page, Product page, and Order page. It is fully responsive and functions smoothly across mobile, tablet, and desktop devices.

Electronic ← **Click here**

Developed a fully responsive multi-page electronics website using HTML, CSS, and JavaScript, featuring Home, Product, and Order pages with a smooth user experience across mobile, tablet, and desktop devices.

Pest-control ← **Click here**

I have developed a fully responsive pest-control website that works seamlessly across mobile, tablet, and desktop devices. The navigation bar is fully functional and user-friendly. The project is built using HTML5, CSS3, and Bootstrap.
